

ADDENDUM TO the RFQ Pursuant on the PRE-BID QUERIES MEETING HELD ON 24th March 2026 & EMAIL COMMUNICATION
Project 46166-003 IND: Supporting Human Capital Development in Meghalaya Phase II – Hiring of an Agency for Design, Development, Commissioning and Operation & Maintenance of Teacher Training Management System (TTMS) (Package IT -01)

Addendum

This Addendum to the Open Competitive Bidding (OCB) introduces supplementary provisions and additional requirements that enhance or expand upon the original RFP. These additions are based on discussions and clarifications arising from the Pre-Bid Meeting held on 24th March 2026 and subsequent email communication and reviews. The provisions set forth in this Addendum shall have the same legal standing as the RFP and are binding upon all participating agencies/firms. Agencies must consider these provisions as mandatory in preparing and submitting their proposals.

SL.No.	Addendum Reference	New Inclusion
1	Section 6 - point 9 (Page 119) Confidentiality and Data Security	The bidder has to comply with the DPDP Act and any subsequent acts with respect to personal data, whenever it is dealing with any personal Data.
2	Section 6- Scope of Work AI-Powered Analytics and Adaptive Learning, (Page 102)	The bidder shall develop an in-house- specific- AI model that can perform the functional requirements of the TTMS. Using of third-party AI model or external Large Language Models (LLMs) or similar technologies, is not recommended, as such models may not adequately address the specific requirements of the TTMS and shall pose potential data security and privacy risks. The bidder is recommended to use any free open-source AI/ML frameworks for the development and deployment of the AI model to meet the goals of the project but shouldn't escalate the cost of the project.
3	Section 6- Scope of Work Registration and Enrolment Module	The Department has an existing SMS gateway registered under TRAI on the DLT platform. The same can be renewed during the project. The bidder shall be responsible for integrating the solution with the existing SMS gateway infrastructure. For WhatsApp and Email integration, the bidder shall be responsible for provisioning the WhatsApp Business API and related services as part of the solution.
